Call for Sponsors

UNIVERSITÄT ZU LÜBECK
INSTITUTE FOR IT SECURITY

CARDIS has been the premier venue for security researchers and practitioners to exchange on security of IoT, smart cards, mobile and embedded applications since 1994. **CARDIS** brings together security experts from industry, academia, and standardization bodies to make steps forward in the field of embedded security.

In view of the current coronavirus disease (COVID-19) situation, upcoming **CARDIS 2020** will be a virtual conference. It is organized by the University of Lübeck. The conference enables attendees to stay up-to-date on current research trends and enables corporate sponsors to market themselves and to scout out potential new employees for existing (or future) hiring opportunities. In recent years, **CARDIS** conference attendees came from across the globe from academia, industry and governments.

We believe that it is of great benefit for your company to be associated with the conference in order to gain the international visibility and recognition your company deserves. **You can support CARDIS 2020 in two ways.** Please select one sponsorship category from the list below, or simply contact the workshop co-chairs to discuss additional exciting ways in which you can introduce your company to the audience and contribute to the success of the workshop.
